

STAINLESS STEEL VALVES (unions not included)

The prices of the valves indicated below do NOT include the cost of the unions for connection to the system and must be ordered separately.

Stainless steel thermostatic valve has to be ordered along with a Thermostatic Head, as an accessory, (see on page 221 of this pricelist), either wax-type head or liquid.

COPPER – MULTI-LAYER PIPES

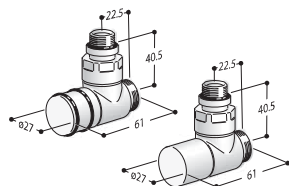

Valve (that can be fitted with thermostat) and Lockshield, STAINLESS STEEL COPPER ANGLE or MULTI-LAYER

Z1TMNR#ANR

REVERSE VALVES THAT CAN BE FITTED WITH THERMOSTAT (unions not included)

The prices of the valves indicated below do NOT include the cost of the unions for connection to the system and must be ordered separately.

The manual operating REVERSE valves (that can be fitted with thermostat) are valves that at a later stage the user can fit with a thermostat and thus turn them into THERMOSTATIC valves. The change is made by fitting a WAX TYPE or LIQUID TYPE THERMOSTATIC HEAD (purchased as an accessory, see page 221 therein) in place of the manual control knob which is eliminated.

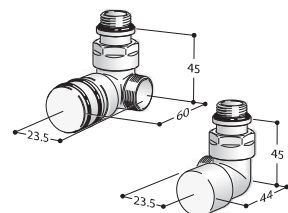

Valve (that can be fitted with thermostat) and Lockshield, REVERSE with RIGHT VERTICAL control
